

Student Union report for the autumn semester, 2025

Memberships in the Student Union

This year has seen a continuous membership increase following the years after Covid. It is the first year since HisTek joined the Student Union and that can be seen in the SiS memberships from the engineering institution (Table 1). HisTek has spiked with just above 70% increase of memberships from the introduction with 32 more members. The theory being that previous HisTek members, not part of the Student Union, have joined with the installment of HisTek.

Overall we saw a large increase for all sections, with Vitae increasing with 31 members (19,5%), Skösjuk an increase of 6 members (5,26%), Skills increased with 49 members (8,13%) and Safir increased with 22 members (8,18%). This results, with an increase of 140 new members (11,47%) with 1 member lost from Support memberships (-4,55%). This is **without** taking into account the loss of students whose membership expired during the summer due to graduation or otherwise.

This is **with** an increase of price for membership and ovve as depicted on Table 2. We can see a lower change in comparison to the autumn of 2024 which saw an increase of 18%, and autumn 2023 which had a 15% increase.

Section	VT25	HT25	Note	Δ
HisTek	45	77	*Previous HisTek members joining SiS	71,11%
Safir	269	291	-	8,18%
Skills	603	652	-	8,13%
Skösjuk	114	120	-	5,26%
Vitae	159	190	-	19,50%
Support members	22	21	New row for support memberships	-4,55%
SiS Total Members	1 212	1 351	-	11,47%

Table 1: Student Union Membership difference from May 24 2025 to November 17 2025.

Old Price	New Price	Duration	Price per semester	Information
0 kr	200 kr	6 months	200 kr	Distance studies
150 kr	300 kr	1 year	150 kr	Support membership
250 kr	400 kr	1 year	217 kr	Renewal
450 kr	700 kr	3 years	138 kr	Renewal
200 kr	250 kr	6 months	250 kr	Exchange & preparatory year
550 kr	700 kr	6 months (package)	100 kr	Exchange & preparatory year
350 kr	500 kr	1 year	250 kr	
790 kr	940 kr	1 year	170 kr	
700 kr	950 kr	3 years	158 kr	
1 050 kr	1 300 kr	3 years package	117 kr	

Table 2: package: Membership + ovve + 2 patches

Introduction HT25 Evaluation

This year's introduction period for the autumn semester showed, as is tradition at this point, similar communication problems that have occurred in previous years with the University with its strengths and weaknesses as usual. The fadder/buddy educations have progressed well, as no major incidents occurred amongst the buddies this year. Overall the introduction was a very successful time for the Student Union. Several sections reported an increase of ovve sales in higher quantities than memberships, with a noticeable lower sales across the board on Tuesday of week one, which was caused by rain. There is a possibility this caused a lower number of new members to the Student Union. There is a big increase of visitors to the student kansli and student engagement following a successful introduction period.

We also had the first rain on a kortege for, apparently the first time in the university history, based on some of the personnel at the University. There was no back-up plan from the university, which resulted in heavy rain pour and thunderstorms during the parade. The event was cancelled halfway on Hertig Johans gata and students were led back to the university. A back-up plan for bad weather should be high on the priority list following this.

Atlas2

Through some engaged students within the Union, Atlas2, the theatre and spex group is in the process of being revived as a sub-association. This is up to the will of the General Assembly/Stämman to revive further through the implementation of the new bylaws for Atlas2.
