

Report of operation - Student Union Board VT22

This report is a compilation of how the Student Union has worked during the spring and how we are going to work during the intro and fall HT22.

Number of members

The spring is usually quite calm regarding number of members and it's the same this year as well. All the sections have pretty much the same number of members as they had last fall.

SiS had a total of 779 members last fall. SiS had in total 776 members when this report was compiled. Down in the chart below is how it is split up between all the sections.

| Section | HT21 | VT22 | Δ |
|-------------------|------------|------------|-----------|
| ESS | 28 | 28 | 0% |
| Safir | 163 | 164 | 1% |
| Skills | 370 | 368 | -1% |
| SköSjuk | 63 | 62 | -2% |
| Vitae | 146 | 145 | -1% |
| SiS Totalt | 779 | 776 | 0% |

The activities of the Student Union

The spring introduction was in hybrid form, both from the school and the Student Union.

We have held mostly non-digital events during the spring since we are back to normal now. There were still restrictions in the beginning of the semester and then those restrictions got taken down in February. That made it possible for more non-digital events. The traditional sittings that we used to hold before COVID could again be held like normal.

Both Valborg and the Spring Ball is now back as well! Valborg didn't return like normal since there was no one planning it but there were still students in the park during the day. SköSex had their sitting later during the evening. The Spring Ball will take place next week and it is open for students that graduated during the pandemic as well. Både valborg och vårbalen har nu kommit tillbaka!

Kårhuset Boulogner is back in business as usual as well and is pretty much back as they used to be before the pandemic.

Karriärmässan Framtid

Karriärmässan Framtid 2022 was held digitally like a marketing campaign the 3rd of march. 30 companies participated in the campaign and the website had 495 visitors during february and march, Instagram reached out to 191 accounts and Facebook posts had a viewing of 2 609.

Scania held a lunch lecture the week before Framtid with an estimated number of 100 visitors. The final number was 57 but both the students and Scania seemed satisfied.

It was planned to be held at the school but due to the schedule we had to take a decision before the end of January. We decided that, after we talked with the dean, to cancel the fair at the school and focus on the digital. Back then we had no idea that the restrictions would be gone just a few weeks later.

Most of the companies were still interested in participating in the new structure but that led to less income since the spots on the school weren't sold.

The project plan and the budget for Framtid were revised by the board of the Student Union during the winter. Framtid 2022 ended up with a result of 5668kr.

Follow up on the board of operations

The board of operation from this year put up three focus points;

- Co-operation between the boards in the Student Union
- Visibility both digitally and physically.
- More transparency of the activities of the Student Union.

None of these points have gotten the focus that they deserve. It has been and still is a constant work to come back to the "normal state" and be more visible for the students. Especially for the students that has studied from their home for so long. Our visibility is something we will continue working with, especially during the introduction this fall. More transparency is getting more and more important these days. We as a student union have a big voice in the progress of how the education has been with the transition to digital education and moving forward. Without more transparency about our work, the possibility of collecting a broader perspective from our students will be harder and therefore it will be harder to voice our opinions to the school.

HT22

We are looking forward to a regular intro, to show how it really is supposed to be, if not even better. To start again and set a new standard for how we are supposed to show ourselves and more opportunities to what we can do. It is planned like it was before COVID with a sneak peek week 34 and then the week afterwards the tents will be up and the Monday will have the big stage with speeches from both the dean and the Student Union.

Moving of the kansli

We have now move from the A building to the F building. It was taken place just as the year started och now we are basically completely moved in.
